New Zealand Animal Evaluation Limited

Private Bag 3221, Hamilton 3240 | Ph: 0800 4 324 7969 | info@nzael.co.nz | dairynz.co.nz/nzael

****Note:** We run all the models every AE Run using an updated pedigree file but for the months July – October we do not update the phenotype data for Fertility, Functional Survival, Calving Difficulty or Gestation length for the current dairy season. This way any new animals get a BW estimated but part season information for these traits is not used and this reduces the risk of under or overestimate of the BVs.

***Data Deadline** - please note that overseas bulls, which have not had an AB Code applied for need to be received in the NZ Animal Evaluation email inbox 4 days before the data deadline.
