

Resource checklist

for DairyBase Level 2 physical questionnaire

A list of suggested documents to help you complete the level 2 physical data questionnaire for DairyBase.

Animal reports

- Removed animals report
- Herd summary or stock reconciliation
- Fertility focus report
- Antibiotic treatment record for lameness and mastitis

Milk production

To save time, download your daily production for the season from your milk supply company. This will have everything you need to complete the section below, except milk fed to calves.

- Milk kept out of the vat fed to calves
- December milk production statement
- Milk statement for peak month of production
- Average SCC for the season

Feed

- Grazing records (cows wintered on/off farm, and young stock grazed on & off the milking platform)
- Supplements purchased and fed out on the effective dairy area (feed records or invoices of feed purchased)
- Supplements made on the effective area and where it has gone
- Supplements bought in from support blocks

Fertiliser

- Soil test reports
- Fertiliser Annual Nutrient Summary/application record

Irrigation

- Metred water used through irrigators for the season or flow rate
- Days of the season irrigated
